1. It is also noted that a review of the H.D.D.G. and the country's situation in the field of human rights information indicates that the country is not doing well in this regard. It is believed that this may well be due to the fact that the country is not doing well in this regard.

It is presumed that KHEMTHOY will be named AUM's successor, thus maintaining the conservative strength in Washington and maintaining the status quo in Europe, with AUM still actually running the show.

It is presumed that the "General" KHEM in Brussels is Ferenc KHEM, who was reported previously to be XANG's representative in Belgium, although this is the highest rank he is believed to have reached by the end of the war. While XANG was reported recently to have requested a "military" investigation of the NHEK, it seems doubtful that either AUM or KHEM is in a position to remove NADIS and KERPOMAI or to place someone over XANG unless, possibly, some very outstanding circumstances are to be made to the contrary. In any case, it seems safe to assume that the changes will be minor, changing only and that the essential character of the group will not alter. Any further information or comments you may have on shifts within the NHEK would be appreciated.
